# TOWN OF BEDFORD

## BUDGETARY TOWN MEETING

## MARCH 9, 1994 - MCKELVIE SCHOOL

The Budgetary Town Meeting was held on Wednesday, March 9, 1994 at the McKelvie School. Seated on the platform were Councilors James Dias, Paul Goldberg, Edward Moran, Thomas Riley, Richard Stonner, and Eugene Van Loan, Jr. Also, Artherline Robersen, Town Manager; Edith Schmidtchen, Town Clerk; Anthony Plante, Finance Director; Earl Legacy, Town Moderator; and Martha Harris, Town Council Secretary.

Mr. Legacy opened the meeting at 7:10 PM and led the Pledge of Allegiance. There were approximately 560 people in attendance. Mr. Legacy read the results of the previous day's election.

Richard Aldrich, Commander of the Richard Harvell VFW Post 8401 presented the annual awards to members of the Police and Fire Departments: Patrolman Paul Roy, and Sgt. Joseph Fichera from the Police Department, and Call Fire Fighter Daniel Murphy and Captain Scott Wiggin from the Fire Department.

Town Council Chairman Richard Stonner said this is the last meeting for two very valuable members of the Council, Eugene Van Loan, Jr. and James Dias. Mr. Stonner thanked Mr. Legacy for his services as Moderator.

Mr. Stonner said Mr. Dias has been on the Council for 6 years/2 terms. He is known as "Mr. Budget" and has been asked to be budget consultant for the Council next year. He was presented a plaque and a gift.

Mr. Stonner read a resolution of appreciation and presented a plaque to Mr. Van Loan epitomizing his many years of service to the Town on many different boards and commissions. Mr. Stonner said anyone who has worked with "Pick", just by osmosis becomes a better person. Mr. Van Loan received a standing ovation. Mr. Van Loan said he is very appreciative of the plaque and thanked the Council who served with him.

Mr. Legacy reviewed ground rules for the meeting.

Mr. Legacy explained that Article 3 requires a secret ballot and must be approved by a 2/3 vote because it is a bond issue.

**ARTICLE 3. To see if the Town will vote to raise and appropriate a sum not to exceed two million two hundred thousand dollars ($2,200,000.00) plus interest earned on invested funds, for the purpose of constructing a public library, such sum to be raised by the issuance of serial bonds or notes under and in compliance with the Municipal Finance Act (RSA Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other action as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Bedford, and pass any vote relating thereto. This article requires a two-thirds ballot vote.**

*Mr. Stonner moved Article 3 as written; motion seconded.*

Sue Holstein, Library Trustee, gave a brief history of the evolution of the Library indicating they are out of space and need to address the issue of handicapped accessibility. A needs assessment completed in 1992 recommended a 20,000 sq. ft. facility. Two alternatives were studied. One involved a major addition with extensive renovations,

and the other was starting from scratch with a new building. They found it would cost less to build a new building, be cheaper to operate, and would look better. The firm of Dennis Mires was selected as an architect. They have worked hard to ensure that the proposed library is the most cost efficient and functional building possible. The Trustees made a commitment to raise $500,000 for the library, and to complete this goal they need a commitment from the voters. Mrs. Holstein urged support of the article.

Sandra Mezzanotte, 14 Chandler Road, member of the Bedford Center Historic Preservation Committee, said their committee and many citizens are opposed to the project for several reasons including size, architectural style, and it goes against the Master Plan which called for more green space in the center. It goes against the goal to preserve and protect the historic beauty of the center. Mrs. Mezzanotte feels a search should be undertaken for a new site. She does not feel the Trustees have fully explored other possibilities of land that has been offered to them. They would be happy to compromise for a smaller library. She asked everyone to vote no.

Bob Ackerson, lives in north Bedford in the Pines area, described the deplorable, atrocious conditions of the library. He urged people to think ahead for 10-20 years for what this structure will do for the Town.

Linda Stonner, 43 Hardy Road, asked people to think about what a library means to you and what it should do for the community. Our children need better books and better reference.

Parsons Richmond, Wendover Way, Library Trustee, feels a new library will enhance the center.

David Clark, 62 Bedford Center Road, Co-chairman of the Bedford Center Historic Preservation Committee, said he is a visual abutter and has a real concern of having to use a shoehorn to put a building on that site with 67 parking spaces. He feels this new structure will dwarf the Town Hall and the Church. The center needs more green space and less asphalt. This proposal will double the paving. He suggested investigating an alternate site, i.e. the 50 acres next to the soccer field. He urged a no vote until this can be investigated.

Mark Arnts, 20 Ruth Street, has seen the library shrink from the inside, and thinks it would be great for the Town to get a new library in the center of Town to preserve these volumes of knowledge.

John Emery, 55 Cambridge Road, thinks they have put together a fine set of plans. The fire station is a brick box, and it does not destroy the character of the center. He urged a yes vote.

Robert Lacoste, 30 Tirrell Road, does not feel people are arguing against the library. He feels it is a comparatively big building for a small area, and we will lose a lot of green space. He questions the accessibility of the number of people who use the library. He said we could put it next to the safety complex or near McKelvie School. He does not feel these have been successfully explored. We need a new library but should explore other options.

Frank Morris, Ledgewood Road, member of the Library Building Committee, said the new library will be 19,000 square feet on 2 stories with a 10,000 sq. ft. footprint. The current building has a 7,000 sq. ft. footprint so the new building is not that much bigger in footprint. The site is 2 acres, and total green space after everything is on the site will be in excess of 60% of the lot. This is projected for a 20-year use.

Ralph Wiggin, 13 Bell Hill Road, has lived in the village all his life and did not realize these new people coming in wanted to preserve the way they are talking. He said no one has worked harder for Bedford Center than he has. He does not feel this building will be out of proportion and feels it should

be built there. It was left for that purpose.

*A motion was made and seconded to move the question. The Moderator accepted the motion. Vote on the motion to move the question passed by voice vote.*

The polls opened for voting at 7:50 PM. Mr. Legacy announced the polls will close at 8:52 PM.

**ARTICLE 4. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.**

**Town General Fund - $6,307,105**
**Sewer Fund - $450,117**
**Police Contract**
**Work Fund - $118,929**
**Summer Day Camp Fund - $46,725**

**Total Appropriations - $6,922,876**

Chairman Stonner read an overview of the budget indicating the most significant changes in the funding mix are in the areas of public works and solid waste. The proposed budget would result in a town tax rate of $2.59 per $1,000 assessed value. This represents an increase of 8¢, or 3.2% since 1988; an annual rate of just over one-half of one percent per year for that period. He said there are 2 major changes that will affect the budget for 1994 and coming years - the closing of the landfill and construction of a transfer station. The closure, an unfunded mandate, is expected to cost more than $2 million. This will be phased over a period of a few years in order to manage the overall impact on the tax rate. There is a proposed increase in funding for the unallocated reserve which guards against unforeseen events such as storms and other disasters.

*Mr. Dias moved Article 4 at $6,922,876; motion seconded.*

Mr. Legacy reviewed each category.

**400 - Boards & Commissions - $44,514**

**410 - Agencies & Activities - $104,688**

**420 - Administration - $735,930**

**430 - Police - $1,447,009**

**440 - Fire - $837,397**

**450 - Public Works - $2,223,689**

Anne Hoffman, 64 Cider Mill Road, asked about line 457 if we have sufficient funds to repair road damage with this severe winter. And, do we have enough money for salt and sand in light of the continuing winter storms. Mr. Goldberg said we set aside $300,000 for a number of roads to be repaired plus money for pot holes and maintenance. After the spring, we take a tour of the roads and this allocation could change. We are over budget on salt but under on sand, so there is money in the sand account which we could take out for salt. The Council set aside an unallocated reserve of $35,000, some of which might be necessary to use. We are running with the budget right now.

Dennis Grimes, 96 Camelot Drive, has the same question about roads. He asked for a list of the projects planned to be fixed this year. He said a proposal was set forth last year to charge everyone a fee, $5 or $10, to use the landfill. What happened to that? Mr. Goldberg read a list of the roads and said this is subject to change, and typically does given what happens in the winter. He said if you have specific roads, you can address the Town Council or Director of Public Works and we will look at the roads. Mr. Grimes said Liberty Hill Road should be addressed. He hopes they do not pave over existing problems because it is a waste of money. Mr. Goldberg said we do complete reconstruction or else it will not last.

Regarding the fee for use of the landfill, Mr. Goldberg said there was a proposed fee but it was defeated. The residents do not pay a fee but commercial haulers do. Mr. Grimes

said you have to raise $2 million for capping. Mr. Goldberg said we can spread out the capping over a few years. He said there is still space left in the landfill, and we are in discussion with a commercial hauler to use some of the space. The State is talking about 20% reimbursement on the capping fees.

**460 - Health & Welfare - $73,176**

**470 - Recreation - $180,643**

**480 - Libraries - $327,309**

**490 - Fixed & Other Charges - $332,750**

**Other Funds - $615,771**

**Total All Funds - $6,922,876**

Mr. Legacy said this budget is the operating budget. Depending on the outcome of Article 3 on the library, those funds would be included as part of the budget. The $2.2 million is not included in this budget and will be added if it passes.

The polls on Article 3 closed at 8:53 PM.

*Voice vote on the budget at $6,922,876 passed.*

*A motion was made, seconded and passed to adjourn at 8:55 PM.*

Following the completion of the count on Article 3, Mr. Legacy announced the results with 544 ballots cast, it needed 362 to pass. There were 371 yes and 173 no.

Respectfully submitted,

Martha P. Harris
Town Council Secretary

**TOWN OF BEDFORD 1995 WARRANT**

To the inhabitants of the Town of Bedford in the County of Hillsborough in the State of New Hampshire qualified to vote in Town affairs:

You are hereby notified to meet at McKelvie School in said Town on Tuesday, March 14, 1995 at 7 o'clock in the forenoon to act on the following Articles numbers 1 and 2. Polls are to close no later than 7:00 PM. Action on the Town Budget articles 3 and 4 will be held on Wednesday, March 8, 1995 at 7:00 PM at McKelvie School.

ARTICLE 1. To elect necessary Town and School District Officers for the ensuing two, three and six years.

ARTICLE 2. To see how the Town will vote on the following zoning amendments.

*** The full text of all zoning amendments is on file for public viewing at the Bedford Town Clerk's Office, 24 North Amherst Road, Bedford, NH during regular working hours.**

## TOWN OF BEDFORD OFFICIAL

## BALLOT - 1995

### PROPOSED ZONING & BUILDING CODE AMENDMENTS (Final Version)

ZONING AMENDMENTS PROPOSED BY THE PLANNING BOARD:

**AMENDMENT NO. 1** Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-4-2 USE REGULATIONS, Appendix 45A: Table of Uses by adding the following: **Commercial Uses: Adult Entertainment businesses shall be permitted (P) in the PZ Performance Zone**, and add footnote 30. **Subject to the standards for adult entertainment businesses found in Section 45-9-16 and all other applicable zoning and site plan requirements.**

[This amendment designates that "adult entertainment" businesses may only be located in the U.S. Route 3 Corridor Performance Zoning District and must further meet special setback and operation requirements. Such uses must be allowed somewhere in each municipality per decision of the U.S. Supreme Court.]

**AMENDMENT NO. 2** Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-9 U.S. ROUTE 3 CORRIDOR PERFORMANCE ZONING DISTRICT by adding the following: A. Section 45-9-5 Definitions - **Adult Bookstore/Video Store, Adult Motion Picture Theatre, Drive-In Theatre, and Arcade, Adult Cabaret, Adult Motel, Adult Theatre, Nude Model Studio, and Sexual Encounter Center**; B. Section 45-9-6 Permitted Uses - **(z) Adult entertainment businesses**; C. **Section 45-9-16 - Standards for Adult Entertainment Businesses** (full text at Town Office).

[This amendment defines "adult entertainment" uses and specifies that such uses may not be located within 1,000 feet from churches, schools, town boundaries, the boundary of the zoning district, or another adult entertainment business. Such uses may not be located within 500 feet of an existing residence.]

**AMENDMENT NO. 3** Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-10 OFF-STREET PARKING REQUIREMENTS by adding the following: A. Section 45-10-1 General Provisions **(i)All parking facilities, including number of spaces, design of spaces, and access ramps**

**for new or changed-use buildings, excepting single-family homes, shall conform to the federal Americans with Disabilities Act of 1991, and as amended.**; B. Section 45-10-2 Specific Provisions - (12) **Restaurants - One space for each four (4) seats plus one (1) space for each employee of the largest shift**; C. Section 45-10-2 Specific Provisions - (13) **Cocktail Lounges in Restaurants, Bars, Nightclubs, and Adult Entertainment Businesses - One (1) space for each two (2) seats plus one (1) space for each employee of the largest shift**; D. Section 45-10-1 (h) Minimum Geometric Standards, Appendix 45C - **reduce the parking aisle width for 90 degree parking from 28 feet to 24 feet for two-way traffic.**

[This amendment requires inclusion of handicapped parking spaces and aisles, revises parking space quotas for restaurants and nightclubs, and reduces the parking aisle width for commercial facilities from 28 feet to 24 feet in width.]

**AMENDMENT NO. 4** Are you in favor of the adoption of Amendment NO. 4 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-4-2 USE REGULATIONS by adding the following: A. Section 45-4-2 (f)(1) Home Occupations, f. The building or premises shall not be rendered objectionable due to ... electrical disturbance, **on-site storage of hazardous materials as determined by the Bedford Fire Department...**; B. Section 45-4-2, Appendix 45A: Table of Uses, **Medical and dental clinics shall be permitted in the Office (OF) district.**

[This amendment prohibits storage of hazardous materials in residences where a home occupation is occurring, and now would allow medical and dental clinics in the Office Zone.]

**AMENDMENT NO. 5** Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-4-3 DIMENSIONAL REGULATIONS by adding the following: A. Figure 45.1 Table of Dimensional Regulations, General Residential district (GR), Footnote (12), Minimum lot size and frontage shall be as follows: **a. Served by both public water and public sewer, lot size one-half (1/2) acre, frontage one hundred (100) feet.**

[This amendment would allow creation of 1/2 acre lots in the General Residential zones located along Worthley Rd., Boynton St., Palomino Lane, and Sebbins Pond if the property is served by public water and sewer. This provision was in earlier versions of the Ordinance and was inadvertently omitted during a re-codification.]

**AMENDMENT NO. 6** Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-11 SIGNS by adding the following: A. Section 45-11-2 (e) Service Industrial District, (1) Signs are permitted if not over fifty (50) square feet in surface area and set back at least fifty (50) feet from any side or rear property line **and at least ten (10) feet from any front lot line** and limited to use as a business sign.; B. Section 45-11-2 **(i) Route 3 Performance Zoning District, (1) All signs shall be set back from the side and rear property lines at least fifty (50) feet, and from the front property line at least ten (10) feet. (2) Refer to Section 45-9-13 for specific signage standards in the Performance Zoning District (PZ).**

[This amendment would allow freestanding signs to be located 10 feet from the front property line in the Service Industrial Zone and the Route 3 Performance Zone, in a manner similar to the other commercial and industrial zones in Bedford.]

**AMENDMENT NO. 7** Are you in favor of the adoption of Amendment No. 7 as pro-

posed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-9 U.S. ROUTE 3 CORRIDOR PERFORMANCE ZONING DISTRICT by adding the following: A. Section 45-9-5 Definitions, **BUILDING HEIGHT - The vertical distance from the average existing ground level of a building footprint to the soffit (or highest horizontal support) of the building.**; B. Section 45-9-7 Table of Performance Dimensional Standards, Figure 45.9, **Footnote 11. Building height for calculation of setbacks shall be determined as the vertical distance from the average existing ground level of a building footprint to the soffit (or highest horizontal support) of the building.**

[This amendment would allow building height to be measured to the highest horizontal support rather than to the peak of the roof in the Route 3 Performance Zone. Such a measurement would encourage architectural diversity of buildings.]

**AMENDMENT NO. 8** Are you in favor of the adoption of Amendment No. 8 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-6 CLUSTER RESIDENTIAL DEVELOPMENT by amending the following: A. Section 45-6-5 (f) (2) Buffer Zone **(d) In specific instances where, in the judgment of the Planning Board, the topography and/or vegetation of a particular site do not provide an adequate buffer, the Planning Board shall have the authority to require an alternative buffering proposal from the applicant for a Cluster Development approval.**

[This amendment would allow the Planning Board to accept alternative designs for buffering of abutting properties when a Cluster Residential Development is proposed.]

**AMENDMENT NO. 9** Are you in favor of the adoption of Amendment No. 9 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-9 U.S. ROUTE 3 CORRIDOR PERFORMANCE ZONING DISTRICT by adding the following: A. Section 45-9-6 Permitted Uses. All land uses, or combinations thereof, enumerated hereunder are permitted within the U.S. Route 3 Performance Zoning District **subject to review for suitability by the Planning Board. Prior to any Planning Board approval of a proposed use, the applicant must demonstrate that the proposed use will meet all of the performance standards established in the following sections, <u>The Bedford Subdivision Regulations</u>, <u>The Bedford Non-Residential Site Plan Review Regulations</u>, and shall not produce any negative impacts on surrounding properties.**

[This amendment is intended to clarify that development in the Route 3 Performance Zone is only permitted if the proposed use can meet a series of "standards" designed to mitigate impacts on surrounding properties.]

**AMENDMENT NO. 10** Are you in favor of the adoption of Amendment No. 10 as proposed by the Planning Board for the Bedford Zoning Ordinance as follows: To amend Article 45-9 U.S. ROUTE 3 CORRIDOR PERFORMANCE ZONING DISTRICT by amending the following: A. Section 45-9-6 Permitted Uses, Footnote (2), by deleting the text of the footnote and replacing it with "**(2) Unit density for multi-family site plans shall be approved by the Planning Board based on factors such as quality of site design, carrying capacity of the land and sensitivity to environmental features, provision of recreational facilities and open space, and mitigation of new traffic impacts on U.S. Route 3, as well as the standards outlined in the following sections.**"

[This amendment is intended to allow greater flexibility of design and encourage development of appropriate multi-family housing along the U.S. Route 3 Corridor.]

ZONING AMENDMENTS PROPOSED BY CITIZEN PETITION:

**AMENDMENT NO. 11** Are you in favor of removing from the Bedford Historic District Commission jurisdiction the commercially zoned areas along both sides of Route 101? All zoning and planning requirements, including Zoning Board and Planning Board reviews, will continue to be applicable to those commercially zoned portions of Route 101, as is currently the case with other commercial areas in Bedford.

*THE PLANNING BOARD DOES NOT RECOMMEND APPROVAL OF THIS AMENDMENT.*

*** The full text of all zoning amendments is on file for public viewing at the Bedford Town Clerk's Office, 24 North Amherst Road, Bedford, NH during regular working hours.**

**The following budgetary warrant items are to be discussed at the Budgetary Town Meeting on Wednesday, March 8, 1995 at 7 PM at the McKelvie School.**

**ARTICLE 3.** To see if the Town will vote to amend the action taken in 1972 to create a Capital Reserve Fund for Bulldozer Replacement to a Capital Reserve Fund for the Replacement of Major Equipment for the Transfer Station, and to put all funds in the Bulldozer Replacement Fund into the Fund for Replacement of Major Equipment.

**ARTICLE 4.** To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.

| | |
|---|---|
| Town General Fund | $6,984,563 |
| Sewer Fund | 851,122 |
| Police Contract Work Fund | 146,929 |
| Summer Day Camp Fund | 57,225 |
| Total Appropriations | $8,039,839 |

This warrant was approved by the Bedford Town Council on February 8, 1995.

Given under our hands and seal this 8th day of February, 1995.

TOWN COUNCIL
Ed Moran, Jr., Chairman

1994 was a year in which the Town Council devoted considerable energy toward completion of an infrastructure for the next generation. The Safety Complex was finished under budget and will meet all emergency and safety concerns for a long time. It also contains enough growth space to meet other needs as they may develop.

With the decision to go with a transfer station rather than curbside pick up, the Council reviewed various options for the facility and waste removal fees. While the removal of excess ledge made the cost of the facility more than anticipated, good bids on the tipping and hauling fees still allow the cost of this method of waste removal to be less than curbside pick up after two years. By paying for the facility over two years from operating budgets, the Town will not incur any long term debt or interest.

Commercial development on South River Road allowed us to reconstruct the Palomino Lane intersection with lights by using direct impact contributions from the developers. The same source of funds allowed us to work with the City of Manchester to improve the Second Street intersection.

A lot of planning and effort went into the Bowman Brook Sewer Interceptor, which will serve the commercial interests in the area of Route 101 and Constitution Drive. Laying the sewer while the State improves that area of 101, will keep costs low enough to avoid Town borrowing and allow the project to be paid out of revenues from business users along the route.

A new contract with the Police Association via the State Employees Association includes a merit pay system which allocates raises based on performance evaluations.

Despite abundant skepticism, the Library Fund Raising Committee nears the goal of $500,000 to offset costs of the proposed Library. Council efforts to project the effect of these projects has resulted in five year economic forecasts which give us reason to believe the Town tax rate will remain stable.

TOWN MANAGER
Artie Robersen

1994 greeted us with snow and ice storms which quickly destroyed the budget for snow removal. They also required many unplanned call fire and police hours to deal with accidents. I took those words right out of the 1993 Annual Report and can honestly say, I hope we never have back-to-back years like that again. The mild and lingering fall have been far kinder to our resources.

But storms were not the big news. It was a year of building. A Safety Complex, transfer and recycling facility, and preparations for a library in 1995 were big projects. We are building for the future and the Safety Complex should indeed serve the Town's Police, Fire, EMT, and other safety needs for many years to come. Moving the Building Department to the new Complex not only puts all safety areas there, but eased some of the space issues in the Town Office Building which should lengthen its usefulness as well.

The Transfer Station isn't finished, but is well on the way. It is a very versatile structure and site plan to allow the Town to revisit periodically the best way to deal with household trash. The understanding of the issues and technology regarding the waste stream is moving rapidly and it is the Council's and Administration's hope that the buildings are versatile enough to adapt with these probable changes in the field.

Successful negotiations with commercial developers and Manchester allowed the resolution of two major road problems: The Second Street intersection, and a light and turning lanes for Palomino Lane. A by-product of those improvements was the development the road between Palomino and Ridgeway to allow traffic from Ridgeway to go to the Palomino light.

CEMETERY TRUSTEES
Chairman : Robert Sundeen

The Trustees, in compliance with the new RSA 289 ruling, drafted comprehensive by-laws for the operation of the cemeteries in the Town of Bedford which were approved by the Councilmen and Town Manager on November 30th. Approval was also granted for a rise in the cost of lots sold, effective January 1, 1995, to $1000.00 for a four-place family plot.

The number of lots sold in 1994 was 27; 13 were four place lots, 13 were two place lots and one was a single lot.

Twenty burials were conducted, seventeen full burials and three cremations.

Lots are sold containing places for four individuals or can be divided into an "A" and a "B" Section to accommodate those not requiring a full lot. A purchaser must be a resident at the time of sale or prove family or former residency.

The four cemeteries in Bedford are cared for by a superintendent. Any inquiries or questions should be directed to one of the trustees.

SUPERVISORS OF THE CHECKLIST
Betty Folsom, Chairman; Beatrice Miller and Doris Spurway.

As of October 28, 1994 the Bedford voting list recorded 2332 Democrats, 4733 Republicans, 1906 Independents, and 58 Libertarians for a total of 9029 registered voters.

Under RSA 654:7-a, eligible residents were allowed to register to vote at the State Primary and the General Election. On the November 8th General Election Day, 150 new registrations were received bringing the total registered voter's list to 9179.

The Supervisors held 9 sessions for registration, corrections and/or party changes; one all-day voting session for school and town elections; one town budgetary, one school budgetary, one special school district meeting, one all-day primary, and one all-day general election for a total of 15 sessions.

All official sessions are posted at the Town Office, Library and published in local newspapers. Residents may also register or change their party at the Town Office during regular hours. Proof of age and residency are required. The Supervisors wish to thank Edith Schmidtchen, Town Clerk and her staff for handling the majority of the registrations.

Ground was officially broken for the new Bedford Safety Complex at 55 Constitution Drive which houses the Police and Fire Departments. Taking part in the ceremony were: l to r: Councilors Thomas Riley, Richard Como and Edward Moran; Fire Chief Robert Fabich; Police Chief David Bailey; Town Manager Artie Robersen; John Samenfeld, President of Pro Con Construction; and Greg Coates, Project Architect.

## PLANNING BOARD
Gary Howard, Chairman

After four years of recession, 1994 was an exhilarating year for the Planning Board. A record number of applications was received for commercial and industrial development, primarily in the Route 3 Performance Zone. The Planning Board signed plans for 380,000 square feet of new commercial and industrial space -- the largest amount ever approved in one year in Bedford! These new and converted facilities should provide the Town with an increase in its tax base and some good corporate neighbors.

**Final approval was granted for:**

9 Subdivision Plans - 45 new residential lots
10 Lot Line Adjustment Plans
14 Site Plans - 380,000 sq. ft. new commercial industrial buildings or additions
6 Site Plans - 56,180 sq. ft. change-of-use commercial/industrial buildings
5 Home Occupation Permits
1 Improvement Plan - parking
3 Municipal Buildings

**Major developments reviewed included:**

Wal-Mart on Colby Court - 119,826 sq. ft. retail building
Continental P.E.T. on Route 3 - 184,000 sq. ft. industrial building
Sparks Restaurant on Kilton Road - 26,800 sq. ft. conversion from former Diamond Lumber
Bedford Safety Complex on Constitution Drive - 24,000 sq. ft. conversion from office
New Bedford Transfer Station on Chubbuck Road
New Bedford Library on Meetinghouse Road

Your Planning Board is dedicated to the promotion of quality development which will have lasting value, both economically and aesthetically, for all of the property owners and residents in Town. Towards this end, we have been honored to serve the Town of Bedford in 1994.

## BOARD OF ADJUSTMENT
Chairman: Susan Tufts Moore

The ZBA meets on the third Tuesday of the month at 7:30 P.M. In 1994 they heard 34 applications for variances and appeals. Eight commercial and 17 residential variances were approved. Four commercial and five residential requests were denied.

The Building Inspector reviews building applications and directs them if necessary to the proper board. Many of them require variances and are sent directly to the ZBA. The Board hears evidence for and against a variance, appeals from administrative decision, and approvals of special exceptions. After hearing the evidence, the Board discusses the requests and votes in public session. Zoning Administrator, Karen White, attends our meetings and, provides information to Board members on the requests.

When an applicant makes a presentation before the Board for a variance, the following five criteria must be addressed:

1. No diminution in value of surrounding properties would be suffered.
2. Granting the variance would be of benefit to the public.
3. Denial of the variance would result in unnecessary hardship to the owner seeking it.
4. By granting it, substantial justice would be done.
5. Use must not be contrary to the spirit of the ordinance.

Applicants not present at a meeting who wish to have someone speak for them must give written authorization for the representative.

Scheduled applicants listed on the Public Notice wishing a postponement must do so within seven working days before the meeting and must pay for notification of abutters of the change, or the applicant will not be heard for six months. Anyone may appeal a Board ruling in writing within twenty days. The Board then has ten days to determine if it will grant a rehearing because of new evidence presented in the written request.

## PLANNING DEPARTMENT

Director: Karen White, AICP

Activities related to new commercial and industrial development and highway improvements in Bedford occupied most of the Planning Department's time and attention. During 1994, there was more commercial building review and construction than during any other single year in the Town's history.

**New Development**

The record amount -- 380,000 square feet -- of new construction in the Performance Zone, plus 56,000 square feet of building space conversions, kept the Planning Director busy with blueprint reviews, Planning Board meetings, and site inspections. Because many of the commercial sites were very large, such as Wal-Mart and Continental P.E.T., the number of detailed meetings with developers, field changes, and inspections increased exponentially during 1994.

**Zoning Administrator Position**

This year, the position of Zoning Administrator was combined with the Planning Director position. The Zoning Administrator is responsible for interpreting the Bedford Zoning Ordinance for the public, investigating alleged violations, accepting applications for Zoning Board hearings, and serving as staff liaison for the members of the ZBA.

**Highway Improvements**

Bedford is experiencing significant highway improvements, both from the State Department Transportation and at the local level, and these projects have required the attention of the Planning Department. Route 101/114 is under construction, and the Rt. 101/Wallace Road intersection is scheduled for 1995. Meetings with the NH D.O.T. have reduced the potential routes of a new "Airport Access Highway" from 42 corridors to 7 corridors, with preliminary engineering scheduled for 1996. A new "Kilton Road Ramp" from Route 101 is scheduled for preliminary engineering in 1995.

On the local level, the Second Street intersection is undergoing reconstruction and signalization with combined funding from Bedford development projects and the City of Manchester. A new traffic signal is being installed at the intersection of Palomino Lane and Route 3, and Ridgewood Lane has been extended to intersect with Palomino Lane.

## HEALTH DEPARTMENT

The Health Department is responsible for public health in all food service establishments, nursing homes, preschools, foster homes, day care centers, and public kitchens in the Town. The Health Officer inspects each of the following food service units twice a year; restaurants, supermarkets, convenience and grocery stores, retail mini-marts, wholesale food outlets, cafeterias, mobile and catering units, public kitchens in nursing homes and retirement units. Each is licensed annually providing that the State Health and Sanitation Code requirements (He-P 2300) and specifications are met without critical violations and an overall score of 70%.

The Health Officer also inspects day care units, preschools, such as kindergartens and nursery schools, and foster homes to insure that State requirements concerning the health care of younger children is met. Also, the Health Officer investigates any complaints pertaining to the food establishments licensed in Town. A report of each inspection is filed in the Health Office.

A genuine spirit of cooperation exists between the above establishments and the Health Office in maintaining the high standards of cleanliness, refrigeration, good storage and delivery. Since early 1991 the Town has been"Self Inspecting" as are the larger cities in the state. In 1994, Gerry Vallee resigned his post to move to Florida and the responsibilities are being transferred to the Building Department so that all inspections will emanate from one place. This will eliminate the timely coordination of these services and we hope will provide an even better service to the user than Gerry has always given.

## SOUTHERN NH PLANNING COMM.

Moni Sharma, Director

The Planning Commission has a wide range of services and resources available to help members deal with many municipal issues. Technical assistance is provided by a professional staff whose expertise is, when necessary, supplemented by consultants. Annually, with the approval of your appointed representatives, the Commission staff designs and carries out programs of area-wide significance that are mandated under New Hampshire and federal laws or regulations, as well as local or site-specific projects which pertain more exclusively to your community.

Technical assistance is provided by staff at the request of your Planning Board, Town Manager, and other relevant municipal department heads. The Commission conducts planning studies and carries out projects of common interest and benefit to all members, keeps your officials apprised of changes in planning and land use regulations, and offers workshops for Planning and Zoning Board members.

1994 services performed for Bedford: 1) Co-sponsored the Municipal Law Lecture meetings attended by Bedford officials; 2) Six-hour training workshop for Planning and Zoning Boards members; 3) Conducted traffic counts at several locations with data furnished to Town Officials; 4) A monograph for the Town was prepared. Copies have been sent to the Town Manager, Planning Board and Library; 5) The Town was furnished with the "Suggested Schedule and Calendar" for the 1995 Budgetary Meeting; 6) A Regional Bikeway and Pedestrian Plan including Bedford was forwarded to the Planning Board and the Library.

Bedford's representatives to the Commission are: Eugene Van Loan, Jr., Edward P. Moran, Jr. and David J. Danielson (Executive Committee Member).

## ASSESSING DEPARTMENT

Donald Ingalls
Joseph Lessard Jr.

During the past year the Town of Bedford converted from having an employee serve as the assessor to contracting with Municipal Resources Inc. for the provision of Assessing services. Don Ingalls handles all residential appraisals and day to day operations of the department, while Joe Lessard, Certified New Hampshire Assessor, appraises commercial and industrial properties and handles all abatement requests and appeals.

The Office hours are Monday-Friday 8:00 a.m. to 4:30 p.m. Don and I are available by appointment during these hours.

The total number of parcels in Bedford as of April 1, 1994 is 6447. The continued construction growth of the Town has increased the total net valuation more than $30 million to $1,236,413,255 after abatements of $5.5 million.

Manchester West High School Band Members "pepped up" the Safety Complex Dedication

Finance & Personnel Department
Anthony T. Plante, Director

Over the last several years, we have reported on what we have done in the year just completed. I have shared my view of the Finance & Personnel Department's supporting role. The Town Council and Town Manager have managed the affairs of the Town, and oriented it toward the future. Since 1988, for example, the property tax rate has risen by less than 3.2%. Not 3.2% annually, 3.2% over the whole period (barely more than ½ of one percent per year, on average).

We have all worked on approaches to issues and management which may seem unusual to other local governments. We have made performance-based pay a working reality for the last five years. We have worked with other communities to develop common solutions to common problems. Continuing to provide you with the high quality services you expect at a reasonable cost requires continuous effort, willingness to accept change, and try something new and different.

Just this past year, with vacancies in two department head positions, we looked at the functions being performed. Where possible, we redistributed responsibilities to achieve two things; better service, and overall reductions in cost. Some of the changes we will make will involve just this kind of re-orientation of resources and responsibilities. Some of the changes will involve a different kind of investment.

In this year's proposed budget, the Council has included an investment in information technology. But it is not just technology for the sake of technology. As with other things we have done, this will aid in providing staff, department heads, the Manager and Council with the information they need, and will continue to strengthen our orientation toward the future, and toward serving you.

## HISTORIC DISTRICT COMMISSION
Shep Melnick, Chairman

As the pace of development in town picked up, the docket of the Historic District Commission grew. During 1994 the Historic District Commission considered 8 commercial and 13 residential applications. It approved all these applications, some with small modifications..

With the help of Town Planner, Karen White, the Commission continued to review its regulations in order to streamline the application process, clarify substantive requirements, and insure uniform enforcement of HDC rules. Copies of current regulations are available at the Town Office.

The HDC normally meets on the first Tuesday of the month at 7:30 PM. Owners of property within the District must file an application for construction, exterior renovation, or substantial change in landscaping. Martha Harris has copies of the application form and can help explain it's requirements.

The current members of the Commission are Shep Melnick (chairman), Carolyn Richmond (Vice-Chairman), Marilyn Otterson, Maurice Goulet, Madonna Repeta (alternate) , Richard Stonner (Council representative), Laurence Gott (alternate), and Robert Dewey (alternate). The Commission's staff liaison is Chief David Bailey.

## CONSERVATION COMMISSION
David Rice, Chairman

1994 was a very busy year for the Bedford Conservation Commission. The Dredge and Fill Subcommittee devoted one Saturday morning a month to conduct site inspections on properties where wetlands were going to be impacted by construction. Over 24 inspections were made in all types of weather, ranging from the bitter cold of winter to the heat and humidity of summer.

The Pulpit Rock Subcommittee continues to work on the final draft of the master plan for that area which is used by more and more people every year.

The Commission made a proposal to the University of New Hampshire Community Environmental Outreach Program to study the Ashbog property which is located off Route 101 in West Bedford. This project was among a select few that were chosen. Two students are conducting a natural resources survey of the area identifying the flora and fauna as well as components of the area's watershed.

For Earth Day, the Commission donated money to McKelvie and Peter Woodbury Schools that was used for environmental education.

The highlight of the year was the donation of 23.75 acres of land by the heirs of Harold J. Campbell, which has been added to the Pulpit Rock Conservation Area. This donation will help protect a sensitive area at the rear of the property where several streams come together. On behalf of the Bedford Conservation Commission, I would like to thank the Campbell Heirs for this very generous donation which will be greatly appreciated by the people of Bedford.

Smokey the Bear Thrilled the Children at the Safety Complex Dedication

Bedford Police Department
Chief: David C. Bailey

This will be the third year in a row that I have began or ended my report writing about the Safety Complex. In the 1992 Report, I ended with a plea for a favorable vote at the 1993 meeting. In the 1993 Report I began by thanking you for the favorable vote and how we were working on the project. It is now the 1994 report and I am writing this report from my office in the new Safety Complex which we moved into on October 3rd and dedicated on November 20th. I am proud of the facility and encourage those of you who haven't seen it, please stop by. Again, thank you.

In 1994 our calls for service has stayed about the same. Some specific categories went down such as accidents and injuries; and other categories such as burglaries increased. It is my feeling that the Town is growing again even though statistics don't always show the whole picture.

In 1992 and 1993 the Police Department downsized sworn personnel from 24 to 21. I will be studying, very carefully, in 1995 our work loads to be sure we are providing the service you want and can afford. As the world gets more complex so does police service. We must keep a step ahead. It is my goal and the goal of the Bedford Police Department to be responsive to the citizen's needs and continue to make Bedford a safe community in which to live and work.

These goals can only be met by cooperation between town officials, the various departments and their employees and you the citizens. In 1994, we had that cooperation. I thank you all.

FIRE DEPARTMENT
Chief: Robert A. Fabich, Sr.

The Fire Department has again experienced a growth in services requested. Even though the fire loss remained low at about $100,000, quick and accurate action by firefighters and EMT's saved lives and community property valued in excess of a million dollars.

Continuing to be a leader in the State, the Bedford Fire Department accomplished numerous objectives and advances this year. Leading the list, we moved in to a state-of-the-art Safety Complex in October, increased levels of certifications for on-call firefighters, combined the building department as part of the fire department while streamlining services and provided for a Paramedic program with Mark Klose becoming the first Paramedic for the Town of Bedford.

Change in personnel included two full-time members, Lt. Thomas Bulcock and Firefighter Mark Klose moving to on-call status while two on-call members John Leary and Thomas Brisson joined the full-time ranks, In addition, William Hallock was hired as the new Building/Code and Health Officer and Susan Paquette started as the department's full-time secretary. Firefighter Frank Fraitzl was promoted to Lieutenant.

The Hilltop Fire Mutual Aid District continues to be well received by the residents of West Bedford and supported by the Town Council as an excellent method of regional firefighting along with New Boston, Amherst and the New Boston Tracking Station.

Generous donations to the Bedford Rescue Fund allowed for the purchase of two manual defibrillator units totaling $15,000, and a Highway Safety Grant was responsible for the purchase of over $5,000 in EMS training equipment. The Bedford Firefighter's Association fronted $5,000 to initiate the restoration of the Town's 1930 Sanford Fire Truck and also sponsored the Norman Richards Memorial Scholarship to Marc A. Arnts, Jason M. Gosselin, Stacey E. Oates, and Jonathan M. Villeneuve.

As always, the members of the Fire Department are continuously striving to better themselves and the community. They have contributed countless hours implementing change for the better and recognizing savings along the way. I account the success to their participation and thank each member sincerely, 1995 looks to be even more progressive as the department has become a state leader.

TOWN FOREST FIRE WARDEN
Forest Warden: Robert A. Fabich, Sr.
Deputies: L. Burbank, E.Isham, S. Wiggin

1994 was a busy year for wildfires. Many citations were issued for violation of burning laws which resulted in several serious fires. Bedford, along with the Hilltop Fire Mutual District, worked several days controlling a 30-acre fire on Joe English Hill. Three members of the Bedford Fire Department, Lt. Glenn Wiggin, Lt. Kevin Murray, and Firefighter Bill Atkinson each spent two weeks assisting with controlling the great west fires in Colorado and Montana.

The three leading causes of fires were no permit, children, and rekindles of fires where the fire was improperly extinguished. Violations of the fire permit law, and other burning laws of the State are misdemeanors punishable by fines of up to $2,000 and/or a year in jail plus liability for all costs.

Before burning, contact your local Warden or Fire Department to find out if a permit is required. This also helps prevent unnecessary responses to controlled burns.

Towns and the State share the cost of suppression equally. The State operates 15 fire towers and 3 aircraft patrols. Early detection and reports from citizens aid the quick response from local fire departments.

## BUILDING DEPARTMENT

Building Inspector: Bill Hallock

1994 was a banner year for Building Inspection. Not only was there a large amount of construction occurring, but an administrative reorganization to provide better coordination for the various types of permits and inspections was implemented. The Building Inspector is now also the person responsible for health inspections, and many safety permits. By reporting to the Fire Chief, all building safety is coordinated via one department. This transition was facilitated when a new Building Inspector was hired. The service was also moved to the Safety Complex to assure better coordination by proximity to the other safety functions.

| | Building Permits | Certificates |
|---|---|---|
| 1990 | 53 | 77 |
| 1991 | 87 | 83 |
| 1992 | 117 | 104 |

RECREATION DEPARTMENT
Brian Ross, Recreation Director

Volunteer spirit made a difference in Bedford in 1994. From Service Clubs, the Bedford VFW Post #8401 with Memorial Day Parade; and Bedford Newcomers Club with Springfest, to individuals like Ron Janowitz who taught cross country ski lessons; to businesses in Town who sponsored community events such as Prudential-Habs Realtors - Family Summer Cultural Series; RE/MAX Property Specialist Group, Inc. - Family Holiday Concert; Bedford Village Inn - Holiday Decorating Contest. The Recreation Department depends upon this community volunteer spirit to make a lot of what we do possible in our community.

An outstanding volunteer community project in 1994 was the construction of our super playground structure by the Town pool complex off County Road. Eileen Scullin and Judy Fairclough spearheaded this volunteer effort into a reality within one year. Over $60,000.00 was raised from the community and hundred's of volunteer hours were used for the construction of the playground this past Fall. The playground project was a total community effort which will provide many hours and years of enjoyment for children of Bedford.

Our Summer Season was another success with the Summer Camp and pool operation. Over 70 children per week attended the Summer Camp Program at Peter Woodbury School. Our theme weeks included "Exploring Our World"; "Keeping Cool, Being Cool"; "Moving To The Moon" and "Magic Madness" to name a few. A big camp cookout and entertainment by Bob Riordan, a magician, ended the Summer Camp Season on August 19th.

The Memorial Pool was an active place to be this past summer with 753 children participating in the swim lessons. Average attendance per day for the pool for month of June was 179; for July 213 and 95 for August. Both our pool staff and summer camp staff did an outstanding job along with our student intern from University of New Hampshire, Brent Elmore.

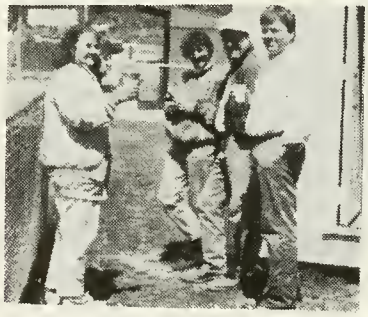
Our Family Summer Cultural Series was a hit this past summer and seems to be gaining popularity every year. In 1994, 1,450 people attended one of the seven shows. New entertainers were Red Grammer, Gary Rosen and Russ Marotta "The Music Man".

The Recreation Department ran a number of successful bus trips this year. They included Disney On Ice, New England Flower Show, Stars on Ice, Red Sox Baseball, Museum of Fine Arts, New York City and a Boston Pops Christmas Concert at Symphony Hall. These and other great trips are planned for 1995.

Some new programs implemented in 1994 included Field Hockey Summer Program, Teen Pool Party, "All Green Kids St. Patrick's Day Party" and an adult baking class.

The Recreation Department is always looking for new ideas and hidden talents within the community. Please call us if you have an idea or some skill to share with others.

Overall, it was an exciting and prosperous 1994. I want to thank all the volunteers who made things happen. Volunteerism is not only doing well in Bedford, it is thriving and growing to make Bedford a better place to live for all its residents.



Parks and Recreation Commissioners working at the Riley Field Clean Up Day. r to l: Scot Pollock, Jim Hocking, Chrystal Ruszenas and Mary Selvoski.

## PARKS & RECREATION COMMISSION
Scot Pollock, Chairman

Once again, the Parks & Recreation Commission met each month throughout 1994. Continued support from businesses such as the Prudential Habs Realtors enabled the Commission to sponsor the Summer Family Cultural Series resulting in record attendance, and community wide support helped to accomplish our first annual Spring Clean Up Day around the Riley Field Complex. In addition, 1994 proved to be the year of volunteerism from the completion of the playground to phenomenal work performed on our town baseball fields by Bedford Little League.

The Camp Passaconnaway Program again proved to be a huge success with over 700 Bedford children participating in a variety of programs throughout the summer months. While still self funding, this program has proven to play an important role for many families during the summer months.

Your Parks & Recreation Commission is presently planning for it's first Winter Carnival in late January, and once again our Spring Clean Up Day. I encourage all to get involved in all these efforts. It truly speaks to the quality of living that we are fortunate to have in our Town.

In closing, I want to express my thanks to Brian Ross, our commissioners, and most of all to the volunteers who make Bedford a desirable place to live.

Councilor Dick Como works on Riley Field Clean Up Day

## HERITAGE TRAIL
Chairperson: Honey Weiss

The Heritage Trail was well utilized over the 1994 season. We are proud to have seen several important projects come to fruition. This summer many of you noticed a facelift to the trail. Through a surfacing grant from the National Recreation Trail Fund, the first 1/4 mile of the Bedford Heritage Trail was graded and crushed gravel was placed. This increased the trail's accessibility to the physically challenged. The first lot of trees and shrubs were planted thanks to a grant from the Small Business Association Tree Planting Program. For those new to the trail, we now have our new entrance sign at Moores Crossing. This will help inform visitors of what to anticipate on the trail.

Fund raising efforts in 1994 brought in $1,218.47. This will be used toward a matching grant received from the New Hampshire Transportation Enhancement Program. Plans are in place to start construction of 6 bridges throughout the trail (including some on our 2 new easement sites). Look for them next Spring.

In October the "Heritage Tales" event, sponsored by the Heritage Trail Committee and The Society For the Protection of NH Forests in cooperation with the Historical Society, was a great success. There were storytellers, cider pressing and fun for all.

We are now more than halfway towards reaching our goal of a 4 1/2 mile trail. Link ups with Manchester, Merrimack and Bedford Pathways are also planned. The river corridor has a rich history, scenic vistas, and unique wildlife. We look forward to seeing you on the Trail. This is a superb natural resource right here in Bedford!

BUDGET OVERVIEW

While presenting a series of difficult challenges, the 1995 proposed budget continues Bedford's commitment to managing the tax rate. The Town Council is pleased to present a budget that does not increase the tax rate. While the proposed budget is up by $1.1 million, much of that is directly related to offsetting revenues, or the costs associated with the change from the landfill to a transfer station.

Of the $1.1 million increase, the self supporting sewer fund accounts for more than $600,000. $400,000 of that is for a sewer line on Route 101. It is offset by private contributions and money from the Sewer Fund to be used for sewer capital needs. The remaining $200,000 results from increased usage of the sewer by new business on South River Road, reflecting the increased payment, from user fees, to Manchester for treatment.

Two other special funds that are supported by user fees show increases. The police fund is up by $28,000 because of extra details being paid for by the State as part of the Route 101 construction. The summer camp fund increases by $12,500, also offset by fees, to add twenty slots for young teen campers.

A large impact is caused by the change to a transfer station. The budget includes $276,000 to complete the facility, or $50,000 more than 1994. $47,500 is for a loader to compact waste to obtain maximum hauling weight. We recommend using funds reserved from 1972 for a landfill bulldozer. This requires a special vote to change the name of the fund from Bulldozer Fund to Transfer Station Equipment. Tipping fees, an on-going cost, add $268,000.

There are some increases for vehicle replacement. Annual replacement of police cars will be $8,500 higher, and replacement of a Public Works truck and loader is $37,000. There is $110,000 for the Fire Department to replace the 1981 ambulance and overhaul the ladder truck. Both will be funded from capital reserves.

The first payment of the Safety Complex bond will add $198,125. A new system to replace the aging and outdated computers and software is $125,000. We intend to continue to resolve the police radio problems and have allocated $20,000. If we receive clearance for a new frequency from the FCC, we will adapt the radios and purchase a repeater.

There is $20,000 to start refurbishing the pool which needs a great deal of repair.

We are also proposing the use of $50,000 toward playing fields on Wallace Road, funded by subdivision fees collected to meet the recreation needs of new growth. This is a $16,000 increase over 1994. We have increased the dollars for road work by the same amount and are committed to road improvements as top priority in 1996 when the impact of waste removal decreases.

Three areas of the budget involve personnel changes. $27,900 is added to the Fire Department for part time staff in light of a 76% increase in activity in since 1987. $10,000 is added to Police to contract for an animal control officer, an area with 62% increased activity over three years. The Transfer Station will result in one less landfill employee.

There are other decreases in the proposed budget. Because the transfer station will be fully funded, not bonded, some capital reserves were decreased to offset the cost. The landfill closure reserve was reduced to $75,000 from $100,000. Fire Apparatus and Public Works reserves were reduced by $25,000. There are other landfill costs which will decrease like the recycling bin rental which is part of the tipping contract. The final payment on the maintenance garage in 1994 contributes a reduction of $161,000.

There are some revenue increases, such as an additional $184,000 in taxes. Auto registrations are $165,000 higher than 1994, reflecting actual revenue. This excess revenue will offset some of the one-time expenses for 1995 while helping to maintain a healthy fund balance to preserve stable tax rates if revenues drop in the future.

LIBRARY
Frances Wiggin, Director
Trustees: George Fournier, Susanne P. Holstein, Parsons Richmond

***"Thank you"*** to the many citizens of Bedford who have said "yes" to a new public library. Scarcely one year ago, the Campaign for the Bedford Public Library announced its goal of raising $500,000 to equip and furnish the new library. There were a few skeptics who thought we'd never raise that much money. Now, a mere nine months following the March 1994 Town Meeting, at which the new library was approved, we are almost there. We expect to wind up the campaign and make a final announcement early in 1995.

Thanks to a herculean effort by everyone involved, the library project will proceed on schedule, with ground breaking in the Spring of 1995. During construction, library services will continue, uninterrupted, from temporary quarters in the vacated fire station behind the Old Town Hall.

Special recognition needs to go to the Fund Raising Committee. This dedicated group of volunteers has chalked up over 1000 contributions from individuals, businesses, clubs, and foundations while overseeing a plethora of events from a Gala Kick-Off Dinner at the Bedford Village Inn back in February, to Library Night at Foodee's Pizza this December. Hats off to Bob Brooks, Chairperson, Mary Danielson, Walter Gallo, Sue Holstein, Hope Inman, Brynn Rehnborg, Parsons Richmond, Bill Wickham, Fran Wiggin, and Mary Lou Wilson.

Even as we plan for the new library, exciting things are happening in our old library. As a member of the Greater Manchester Inter-Library Cooperative Society (GMILCS), the Library participated in purchasing an updated computer system to serve the member libraries. This vastly improved system gives patrons greater ability to search library holdings. Reference services were significantly enhanced with a growing number of CD-ROM databases and access to additional on-line databases including the statewide catalog, Internet, First Search and NH Works.

It was a summer of mystery and intrigue in the Children's Department, with Bedford children reading over 6,200 books for the statewide summer reading program, "Go Undercover With Books". In September, all first grade children visited the Library to receive their first library card. In addition to a full line-up of pre-school and kindergarten story hours, the Library offers the "Book Worms" club for youngsters, grade 3 and up, who enjoy reading, writing and illustrating.

Bedford,'s commitment to its public library, so evident in the success of the capital campaign, is mirrored by the commitment of an able cadre of library volunteers who regularly assist the small, professional library staff in a variety of ways. Together, the regular staff and volunteers maintain the high level of service Bedford library patrons expect.

A few faces have changed this past year. All were deeply saddened by the untimely death last July of Rosemary McLaughlin who assisted in the Technical Services Department of the Library. We appreciate Rosemary's many friends who made contributions to the Bedford Library Building Fund in her memory.

On a happier note, and while we will miss her, Children's Librarian Becky Schulz resigned in August to become Director of the Hopkinton Public Library. The new Children's Librarian, Cindi Ellen O'Connor, arrived in October. An accomplished storyteller, Cindi has ten years of experience with children's library programs, and a master's degree in Library and Information Studies from the University of Rhode Island.

In 1994 we faced the challenge of raising $500,000 in private donations. In 1995, we will face the challenge of moving and serving the Town from a temporary library. We ask you to bear with us during this period of upheaval as we move forward into the 21st century. How lucky we are in Bedford to have such a supportive community!

Parsons Richmond, Treasurer

Council Chairman Ed Moran, Jr. welcomes guests to the Safety Complex dedication

## PUBLIC WORKS DEPARTMENT
Edward S. Kelly, P. E., Director

The Department has four Divisions: Administrative, Highways (traffic and street maintenance), Solid Waste (landfill and recycling), and Wastewater (sanitary sewers). It consists of 20 full-time and 3 part-time employees.

### HIGHWAY DIVISION
Paul Belanger, Superintendent

During 1994 (January to March), the Highway Division tended to 17 separate snow/ice storms, requiring crews to be dispatched on 26 occasions. By all accounts, January was the most severe month that anyone could recall. Everyone pulled together and some how we managed to survive.

In addition to maintaining the Town roads, the Division is responsible for the winter maintenance of other public facilities including Schools, Library, Safety Complex (Police and Fire) and the Town Offices. The data base for monitoring storms, separately and collectively, is capable of costing labor, equipment, materials, repairs, etc., in a continued effort to provide reliable service in a cost-effective manner.

The expenditure for salt and sand again exceeded the line item appropriations. The Division's normal application rate of salt remains at a 4:1 mix of sand and salt. There continues to be the occasional storms that require a significant use of salt, but this type of storm remains infrequent.

The road projects for 1994 equaled 7300 linear feet (1.4 miles) of streets and roads that were resurfaced and/or rehabilitated. The work was accomplished with competitively bid contracts as per Council direction. The UNH Road Surface Management System (RSMS) is the management tool the Department has for tracking road projects.

The Town crews spent over 2,000 manhours with the roadside pickup as a result of the January ice storms. It was an arduous task that seemed to proceed slowly, but in the final analysis it was the "right thing to do".

The major projects for 1994 were improvements to Meadowcrest Drive, Birkdale Road and a start on Woburn-Abbey Drive.

The Town crews spent the summer on more general maintenance rather than the full blown construction projects. Roads worked on were:

| | |
|---|---|
| Beaver Lane | Cider Mill Road |
| Cortland Drive | Nancy Lane |
| Nashua Road | Old Farm Road |
| Pinecrest Drive | Proctor Road |
| Quincy Drive | Rundlett Hill Road |
| Rutledge Road | Sandstone Drive |
| Strawberry Hill Road | |

The amount of road appropriation for FY95 has been set at $350,000.

### LANDFILL DIVISION

The Town Council voted to proceed with the implementation of a Transfer Station to be in operation in 1995. The site is adjacent to the present landfill on Chubbuck Road.

When the Transfer Station starts operation on April 1st, the present practice of trash and recyclables being brought to the landfill will continue, but they will be deposited in containers and transported off-site to an approved facility.

The engineering firm of Weston and Sampson has been retained by the Town to complete the Final Closure Plan for the Landfill. The project is proceeding and Phase One of the closure will commence during 1995.

The firm of GEI continues to assist the Town in the Underground Storage Tank (UST) program. The final work plan for the Landfill tank has been submitted to the State. The monitoring of the on-site wells continues with the results within the accepted standards established by EPA.

## WASTEWATER DIVISION

Stephen R. Crean, Superintendent

The Town received a 20% grant from the State of New Hampshire Department of Environmental Services (DES) in the amount of $413,090 for the Town's share of the Manchester Wastewater Treatment Plant. The treatment plant expansion was completed in the fall of 1994.

New projects that connected to the Town's sewer system were: Continental PET, VIP Auto, Norwood Realty, the State Highway Garage and six (6) single family homes. The Public Works Department is currently working on plans to extend the sewer to the Route 101/114 interchange and Constitution Drive area. A decision on this project is expected in 1995.

February 8, 1994

Town Council
Town of Bedford, New Hampshire

In planning and performing our audit of the general purpose financial statements of the Town of Bedford, New Hampshire for the year ended December 31, 1993, we considered the Town's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. We previously reported on the Town's internal control structure in our report dated February 8, 1994. This letter does not affect that report or our report on the general purpose financial statements dated February 8, 1994.

We are available to discuss these comments and suggestions in detail should you so desire.

Sincerely,

Vachon, Clukay & Co., PC

## WITHHOLDING ACCOUNTS

As in previous audits, we continue to observe that year end balances in the various payroll withholding general ledger accounts were not reconciled to subsidiary records. Consequently, adjusting entries were required to adjust the various balances for mispostings, and over/under accruals of benefits. While the differences are immaterial, we recommend that Town personnel continue to monitor these withholding accounts on a monthly basis to determine that the month-end balance properly reflects the liability of the Town to ensure that differences do not become significant in the future.

*Town Response*

Accrual accounts are monitored on a monthly basis as part of the period-end closing process. To the extent that there are identifiable errors in these accounts, corrections are made. Many of the immaterial differences are part of the functioning of the payroll system and, so long as we identify them as part of this normal operation, do not require active intervention on our part.

We noted certain matters involving the internal control structure and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Town's ability to record, process, summarize, and report financial data consistent with the assertions of Town officials in the general purpose financial statements.

## RECONCILIATION OF GENERAL LEDGER TO SUPPORTING RECORDS

*Observation*

The Finance Office reconciles cash receipts of the Treasurer and Tax Collector to the general ledger on a monthly basis, identifying differences between reported amounts, however not all differences are corrected. Also, during the course of our audit we noted that month-end cash and taxes receivable balances are not reconciled to the general ledger control balances. The principal cause of unreconciled differences are due to mispostings of overpayments, cash receipts and a payroll program malfunction. In addition, we noted instances of the lack of timely recording of deposits. In one instance, we observed that the Finance Office recorded a deposit of an anticipated transfer from escrow funds which had not occurred which also created a unreconciled difference.

*Implication*

As a result, several adjusting entries were required to reconcile the Tax Collector's uncollected taxes receivable balances to the general ledger during the audit. In addition, general ledger cash balances for operating and payroll accounts required immaterial adjustments to correct recorded amounts to actual cash balances at year end.

*Recommendation*

We recommend that the month-end Treasurer's cash balances be reconciled to the general ledger amounts. If any differences exist, they should be investigated and corrected in a timely fashion. This will ensure that accurate balances are brought forward to the following month. The reconciled balance of the payroll account should be reconciled to the general ledger and any balance in the "payroll clearing" account should be investigated and corrected.

Taxes receivable detailed records maintained by the Tax Collector should also be reconciled to the general ledger by the Finance Office to ensure that all warrants, abatements, refunds or overpayments are properly recorded. The implementation of these procedures will enable the management to continue to receive appropriate financial data.

*Town Response*

We have worked, and will continue to work, to improve monthly reconciliation of general ledger control balances with the records of the Treasurer and Tax Collector. The amount of property taxes receivable for 1993 was reconciled to the Tax Collector's records at year end, and we will combine monthly cash receipts reconciliation with cash disbursements reconciliations to the records of the Treasurer also on a monthly basis in order to identify and/or eliminate any remaining immaterial differences.

## TOWN CLERK/TAX COLLECTOR

Edith P Schmidtchen

1994 was a hectic year in the Town Clerk/Tax Collectors office. We did a record breaking number of auto registrations as well as dog licenses. More and more people continue to take advantage of our "do everything here" services. Even though our work load continues to grow, we strive to serve the townspeople to the best of our ability. Please remember that if you have any questions, we are just a phone call away, hopefully saving you an additional trip. Call us at 472-3550. In closing, thank you once again for continued support!

A reminder: Dog Licenses are due April 30, 1995. Licenses will be available April 3, 1995. Please try to remember this date, as a $25.00 fine plus $1.00 per month for every month delinquent will be charged. Please bring current rabies certificate and note the new fee schedule. Don't forget, Cats need to receive rabies vaccinations in 1995.

"Topping Off" the new Safety Complex Hose Tower
